

WHY CUSTOMERS USE O365 IT SCANNER

- Hassle-free, intuitive & quick assessment process.
- Assessments are completed & reports are available within minutes (not weeks/days) Reduced dependency on external consultants.
- Schedule & Automate IT Risk Assessments with built-in functionalities.
- Non-intrusive & safe risk assessment software that works fine in a closed network.

IT RISK ASSESSMENTS SIMPLIFIED TO JUST A FEW CLICKS.

Assessments can be done in a matter of minutes or hours rather than having IT leads spend days/weeks. This lets businesses take control of their IT Security and execute risk assessments on the fly. Summarized & detailed reports serve both business & technical teams by providing action items and fix recommendations.

WHAT IS O365 IT HEALTH & RISK SCANNER?

The O365 IT Scanner is a specialized software capable of doing risk assessments of Active Directory and other Server Technologies like Exchange, SQL Server, Office 365, Hyper-V, etc. The Scanner delivers comprehensive risk assessment report(s) with effective recommendations to remediate IT Risk. It also enables scheduling and automation of risk assessments and reporting.

QUICKLY IDENTIFY ISSUES

- **Uncover hidden issues.**
- Find action items readily.
- Pull detailed reports of affected objects.

Domain Consolidation & Migration processes can be simplified.

KNOW THE IMPACT

- **Understand the impact of issues discovered.**
- Know how & where your infrastructure's compromised.
- Understand the impact of that security/risk exposure.

Enable Service Improvement

REMEDiate EFFECTIVELY & EASILY

- **Remediation items.**
- Remediate using our expert built-in recommendations.
- Get in-tune with industry/ vendor best practices & recommendations.

Ensure Business Continuity

"Assessments usually take over a week as this involves manually executing scripts, preparing a report, referencing technical guides & blogs against findings and providing fix recommendations as part of the remediation plan. The O365 IT Scanner did all of that and more in under an hour."

-A Senior IT Architect at a Leading NY IT Consulting firm
